Attn: John Friedberg

John,

Genesis Surveying and Engineering, PC is pleased to forward this proposal for surveying services for construction layout/staking and as-built drawings for the Vitamin Shoppe project located at **123 S. Weber Road** in Bolingbrook, Illinois.

Construction Layout and Staking:

Genesis Surveying and Engineering, PC will set 8 offset stakes to indicate the location of the proposed Vitamin Shoppe building as well as one vertical control mark. Genesis will also set stakes with elevations indicated for all curb and gutter corners and centers of curve, storm/combined sewer structures, and trash enclosure corners. A layout sheet will be provided indicating the stake numbers, point description and any applicable elevation. These prices are for the initial placement of all stakes, the time required to reset any stakes will be billed on an hourly basis. This price is also based on a total number of three site visits to complete all construction layout work. Any additional site visits beyond that will be billed on a time and materials basis.

Building Layout:	\$950.00
Curb & Gutter and Structures:	\$3,900.00

Note: Foundation Spot and As-Built Survey costs NOT included in this proposal.

Fees for the layout phase of work are due upon completion of fieldwork. These fees are based upon the fact that Genesis shall be provided with control survey points (included property corner monuments) and the CADD file for this project prior to the initial site visit. Genesis typically requires 2 weeks of advance notice in order to schedule fieldwork, so in the interests of ensuring timely completion of fieldwork please schedule work accordingly. If you have any questions, please contact me at (630) 271-0930.

Sincerely,

Jeffrey A. Spirek, PE, PLS, ISA CA
Senior Engineer
Genesis Surveying and Engineering, PC
